Unearth. Transform. Prosper.

Building a more sustainable mining future for Africa

JULY 2026 EDITION
NEWSLETTER

INSAF | Institute for Sustainability Africa

Connecting people, industry and ideas for a more sustainable mining future.

INSAF's Participation at Mine Entra 2026

INSAF participated in Mine Entra 2026, held from 29–31 July 2026 at the Zimbabwe International Exhibition Centre in Bulawayo.

The three-day event provided a valuable platform for INSAF to engage with key stakeholders, industry professionals and organisations from across the mining value chain.

Through meaningful discussions, networking and knowledge-sharing, INSAF strengthened relationships, explored opportunities for collaboration and gained insights into emerging industry developments, challenges and priorities shaping the future of mining in Zimbabwe and beyond.

Key conversations

Throughout the event, discussions across the mining value chain highlighted the importance of practical collaboration, building stronger industry relationships and sharing diverse perspectives. These engagements created opportunities to exchange ideas, identify common priorities and explore ways of working together to support sustainable growth and progress within the sector.

Practical collaboration

Explored opportunities to work together more effectively aligning capabilities, sharing insights and building on complementary strengths.

Stronger connections across the value chain

Focus placed on deepening linkages from exploration to end use, identifying friction points and finding ways to work more seamlessly together.

Exchange of perspectives

A wide range of viewpoints shared across sectors, regions and roles—broadering understanding and inspiring fresh thinking.

Sustainability and responsible mining

Sustainability was a key theme throughout the July event, shaping conversations around the future of the mining industry. Discussions highlighted the importance of responsible mining practices, strong environmental, social and governance (ESG) standards, climate action and meaningful stakeholder engagement.

These priorities reinforced the need for a collaborative approach that balances economic growth with environmental protection and social responsibility, while building a more resilient mining sector and creating long-term value for all stakeholders.

A valuable opportunity to exchange perspectives

Mine Entra offered a valuable opportunity to exchange perspectives, build connections and reflect on the role of sustainability in the mining sector's continued development.

INSAF

Working towards responsible, resilient and sustainable outcomes across the mining sector.
